# Great to step out of the screen

Covid-19 – we made an impact!

We provide solutions to the  
key challenges of the day

The Covid-19 pandemic was a great example

# High performing insulation technology

# Our Mission Statement

VIPA INTERNATIONAL

*“To act as the **global voice** of the Vacuum Insulation Panel industry, promote quality and raise awareness of the potential to save space and energy costs and to **reduce carbon dioxide emissions** in a wide range of applications and industries”*

# Our Achievements

## Initial years of VIPA Intl -> Focus on technical studies

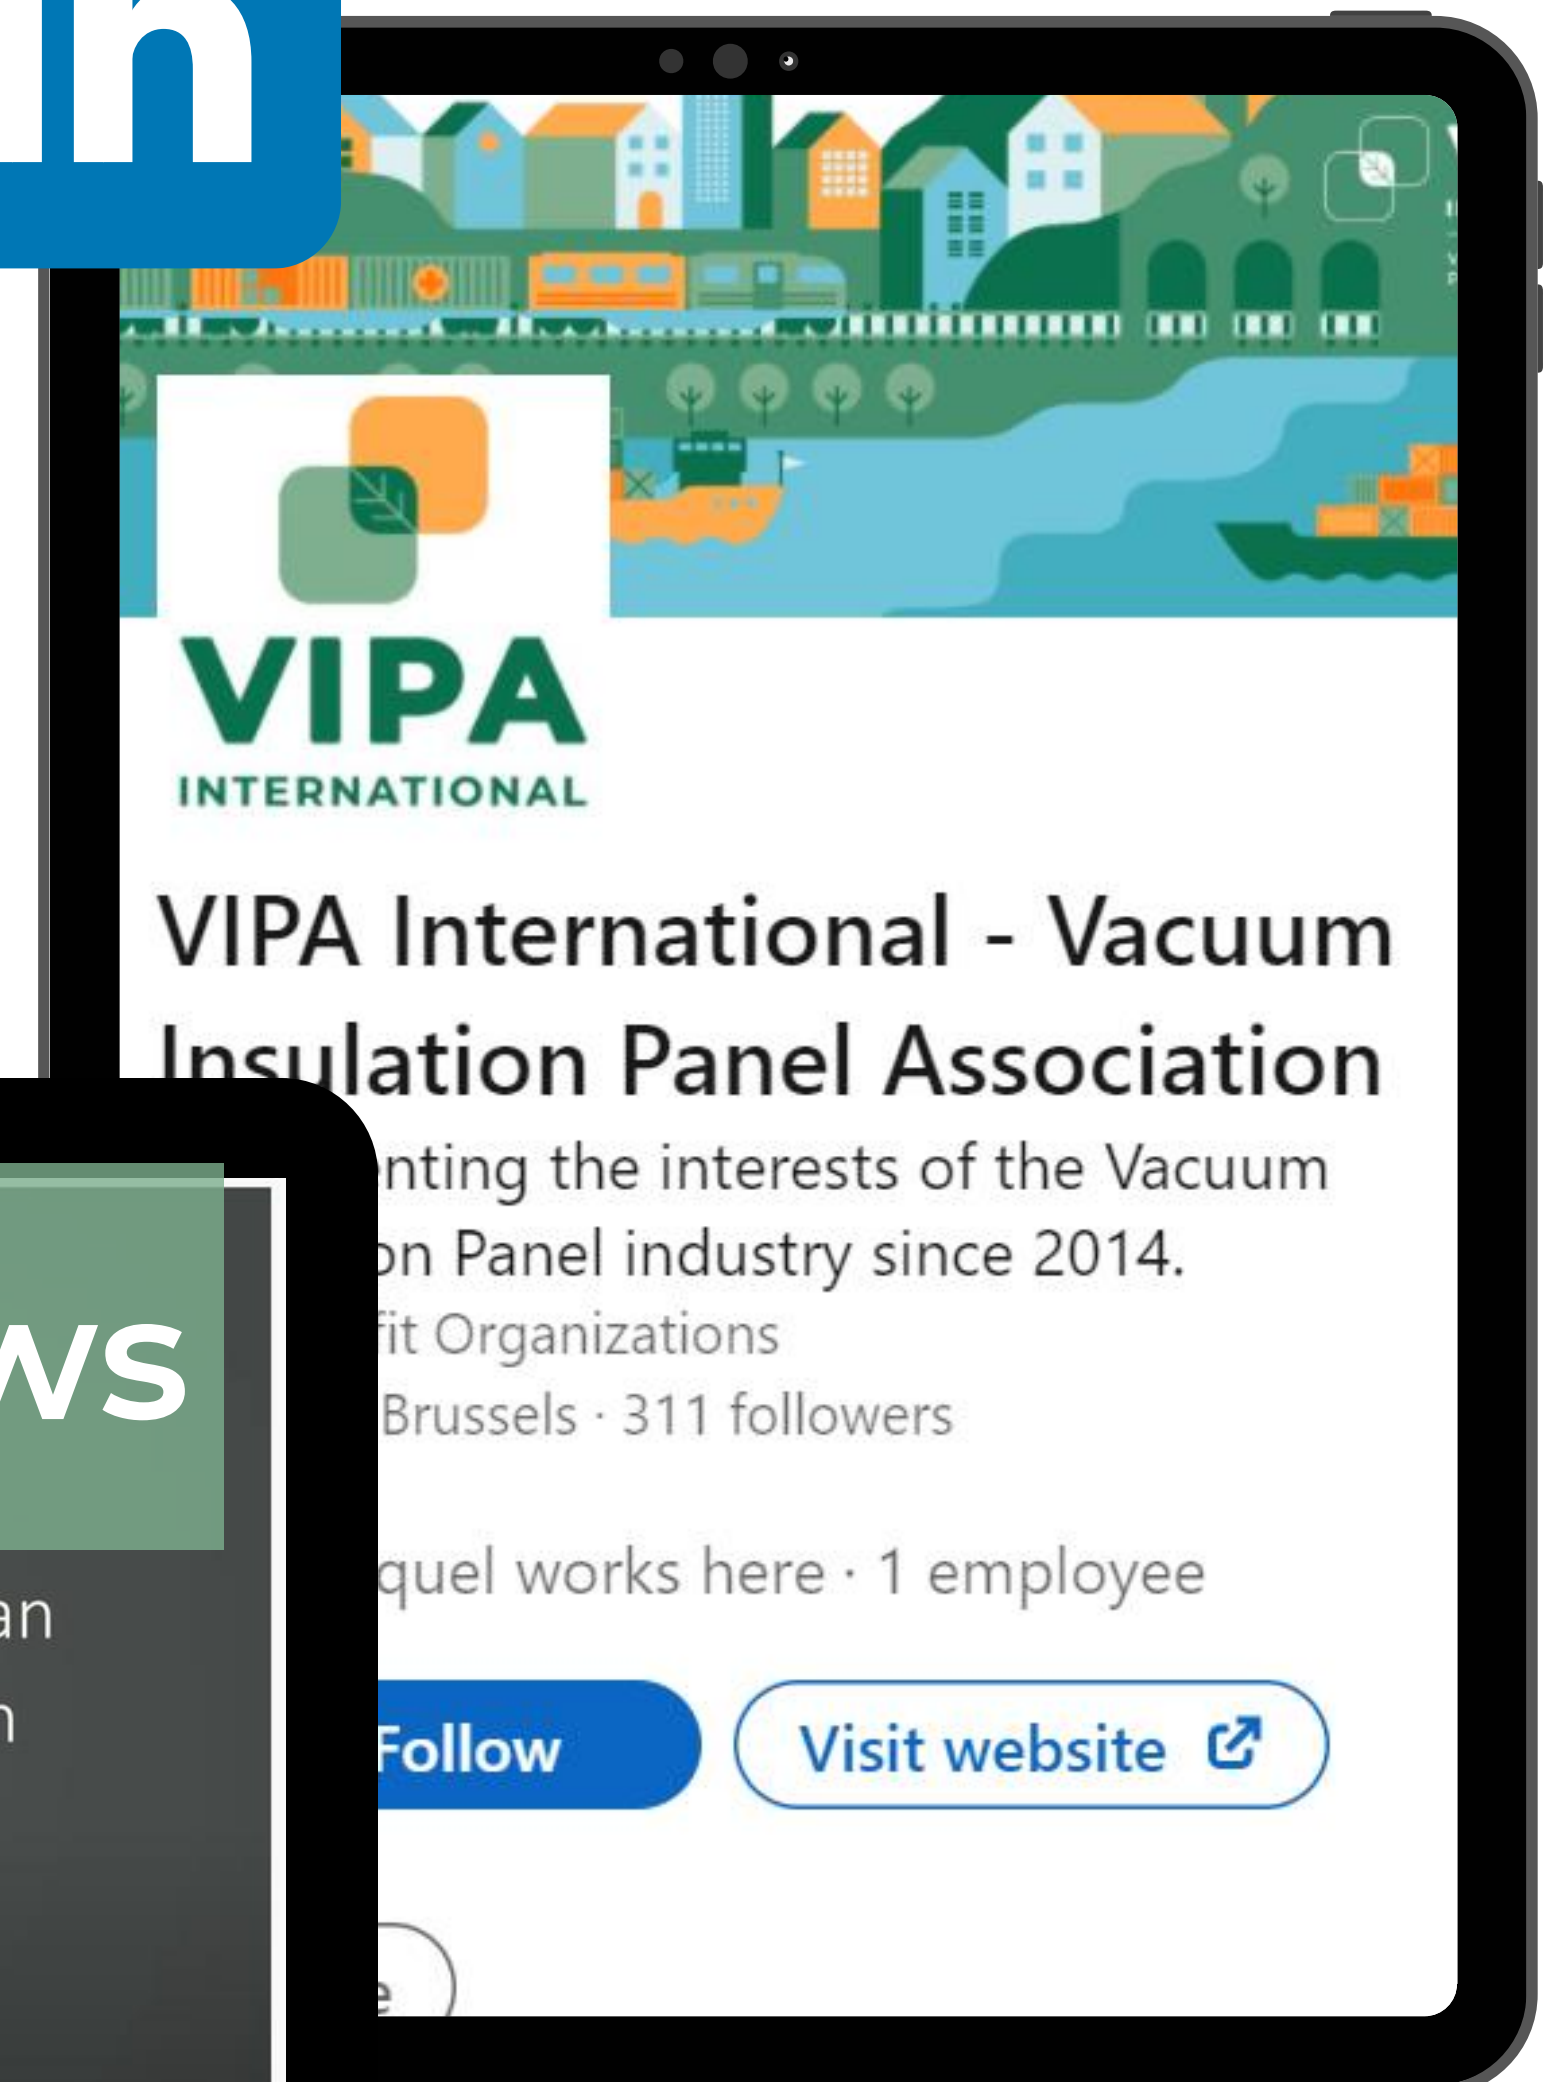

### 5 studies commissioned from 2016 till now:

- Effect of moisture content on the thermal conductivity of **different types of fumed silica VIPs + behavior of different types of fiberglass desiccants** – November 2020
- An integrated study on the **integration of VIPs** in ultra-low energy consumption **concrete prefabricated buildings** - March 2019
- Calibration of the lift-off technique for **measuring the internal pressure** of fumed silica VIPs and **determination of boundary conditions for the lift-off measurements** and processing of measurement raw data – April 2017
- Development of an advanced technique for **measuring the effect of moisture content on the thermal conductivity** of VIPs – April 2017
- **Compressive strength** of vacuum insulation panels according to EN 826: difficulties with the measurement results for VIPs and possible solutions – September 2016
- **Coming up:** A one page scenario for a typical London semi-detached domestic building that highlight impact of VIPs on its yearly energy consumption, payback time and other benefits. Available in Q2.

# Our Achievements

## More focus on communications

- New website
- New animations (videos)
- Social media – LinkedIn
- More audience engagement
- Updated our visual identity
- Frequent international news updates
- More member visibility
- Produced studies for members
- Focused work on standardisation
